1 in 6 babies' lives end in abortion latest official figures confirm: The Department of Health this evening released the total number of notifications received last year for abortions carried out in Ireland. It shows there were 10,033 abortions in 2023 - the highest number on record since the law changed in 2019. Commenting on the latest figures, Pro Life Campaign spokesperson Eilís Mulroy said:

"The colossal 250% increase in abortions since the new law took effect is extremely troubling. The total lack of concern shown by the Government towards this tragedy and loss of life needs to end. Senior members of the current government who oversaw the introduction of the new abortion regime promised that abortions would be "rare" if people voted in the referendum six years ago to allow it. When questioned, these same members of government run for cover or make glib and cavalier remarks whenever Ireland's spiralling abortion rate is raised. They have a responsibility to take ownership for what they created. The Government's decision to release the latest figures after 7pm on a Friday evening shows how much the Government wants to hide from a debate on the appalling situation they have created."

Prayer of Thomas Merton

"My Lord God, I have no idea where I am going. I do not see the road ahead of me. I cannot know for certain where it will end nor do I really know myself, and the fact that I think I am following your will does not mean that I am actually doing so. But I believe that the desire to please you does in fact please you. And I hope I have that desire in all that I am doing. I hope that I will never do anything apart from that desire. And I know that if I do this you will lead me by the right road, though I may know nothing about it. Therefore will I trust you always though I may seem to be lost and in the shadow of death. I will not fear, for you are ever with me, and you will never leave me to face my perils alone."
